1. Introduction

Welcome to the CyberComply User Manual.

This manual is designed to help you navigate and effectively use the CyberComply platform for regulatory compliance assessment and reporting. Whether you are uploading documents, reviewing compliance scores, accessing AI-powered insights, or generating audit-ready reports, this guide provides clear instructions to ensure a smooth and secure user experience.

2. Website Overview

CyberComply is a web-based, AI-powered compliance management platform designed to help organisations assess regulatory compliance efficiently. The platform primarily supports compliance with the **Personal Data Protection Act (PDPA) No. 09 of 2022 of Sri Lanka**, enabling users to upload policy documents, analyse compliance using AI-driven techniques, identify risks, and generate structured compliance reports. With role-based access control, secure authentication, and intuitive dashboards, CyberComply supports accurate and secure compliance assessment within the cybersecurity domain.

3. Accessing the Website

CyberComply is a web-based platform and does not require any software installation. Users can access the system through a supported web browser using a stable internet connection.

3.1 System Requirements

Supported Web Browsers	• Google Chrome • Microsoft Edge • Mozilla Firefox • Safari
Supported Devices	• Laptops • Desktop Computers
Supported Operating Systems	• Windows 10 and above • macOS 11 and above • Linux 20.04 LTS and above

4. User Roles and Access Levels

CyberComply implements role-based access control to ensure that users can only access features relevant to their responsibilities. The platform supports two main user roles: **General Users** and **Administrative Users**.

4.1 General Users

General Users are typically individuals performing initial or individual-level compliance assessments.

General Users can:

- Create and manage their own user accounts
- Upload compliance-related policy documents
- Run compliance assessments
- View compliance scores and identified risk levels
- View generated compliance reports in read-only mode

4.2 Administrative Users

Administrative Users are professionals responsible for organisation-wide compliance, auditing, or risk management activities.

Administrative Users can:

- Upload documents with associated organisation and department information
- Run detailed compliance assessments across departments
- View AI-powered recommendations and corrective actions
- Access graphical comparison dashboards
- Generate, download, and securely share audit-ready compliance reports

Administrative access is automatically granted to users who register using a verified organisational or company email address.

5. Account Creation and Login

5.1 Create an Account (Sign Up)

- i. Open the CyberComply website in your web browser.
- ii. Select **[Sign Up]** from the Welcome page.

- iii. Enter your Full Name, Email Address, Password and select the Role.
- iv. Open and read the Terms and Conditions before clicking the **[Sign In]**.
- v. Check your email for the One-Time Password (OTP) and enter it to verify your account.
- vi. Once verification is complete, your account is activated and you can log in to the system.

Note: If you register using a verified organizational/company email address, CyberComply will automatically assign you **Administrative User** access upon successful verification. All other accounts will be assigned the **General User** role by default.

5.2 Log In

- i. Select **[Login]** from the Welcome page .
- ii. Enter your registered email address/username and password.
- iii. Upon successful login, you will be redirected to the homepage.

5.3 Forgot Password (Account Recovery)

- i. On the login screen, select **[Forgot Password]**.
- ii. Enter your registered email address and submit the request.
- iii. Check your email for the verification code (OTP) and enter it.
- iv. Create a new password that meets the system's security requirements.
- v. Log in using your new password.

6. Account Management

6.1 Profile

- i. From the home screen, click on the **profile icon** located at the top-right corner of the interface.
- ii. The profile page will display your name, email, masked password and the user role.
- iii. You may update or edit these details as required.
- iv. To enable additional security, select the checkbox labelled **"Enable two-factor authentication"**.

Note: When Two-Factor Authentication is enabled, an OTP will be sent to your registered email address each time you log in. You must enter this OTP to successfully access your account.

6.2 Admin Access Request

- i. From the profile page, click the **[Grant Admin Access]**.
- ii. You will be redirected to the Admin Access Request page.
- iii. Enter a valid organizational or company email address in the provided field.
- iv. Click **[Send]** to proceed.
- v. An OTP will be sent to the entered email address.
- vi. Enter the received OTP in the verification field and confirm.
- vii. Upon successful verification, Administrative User access will be granted.
- viii. You will be automatically redirected to the profile page.

6.3 Account Deletion

- i. From the profile page, click on the **[Delete Account]**.
- ii. A confirmation dialog will appear, outlining the data that will be permanently deleted from the system.
- iii. Select a reason for leaving from the dropdown list provided (Optional).
- iv. Click on the **[Delete My Account]** to proceed.
- v. You will be redirected to an OTP verification page.
- vi. Enter the OTP sent to your registered email address.
- vii. Upon successful verification, your account will be permanently deleted.
- viii. You will then be redirected to the welcome page.

7. Uploading Documents and Starting Analysis

7.1 Upload Rules (Applies to All Users)

Supported file formats	• PDF • DOCX • TXT
Maximum file size	• 50 MB per document
Maximum documents per session	• 10

Note: All documents are malware-scanned and stored temporarily for compliance analysis only.

7.2 General User – Upload Steps

- i. On the homepage, locate the **[Upload Bar]**.
- ii. Drag and drop your document(s) into the upload area, or click to browse and select files manually.
- iii. Confirm the selected files and start the upload process.
- iv. Wait until the upload and processing status indicates completion.
- v. Once processing is complete, you will be redirected to the document analysis page.

7.3 Administrative User – Upload Steps

- i. On the homepage, locate the **Organisation** field.
- ii. Enter the relevant organisation name in the provided field.
- iii. Locate the **[Upload Bar]**.
- iv. Drag and drop your document(s) into the upload area, or browse and select files manually.
- v. For each uploaded document, select the appropriate **department** from the available options .
- vi. The system will begin processing the documents. Processing time may vary depending on the number and size of the uploaded files.
- vii. Once processing is completed, you will be redirected to the document analysis page.

Note: If a file is unsupported, exceeds the size limit, is corrupted, or is password-protected, the system displays an error message and prompts you to upload a valid document.

8. Viewing Compliance Scores and Findings

8.1 General User – View Compliance Results

- i. Once the document analysis of the uploaded document(s) is complete, the document analysis page will be displayed.
- ii. Review the displayed Compliance Score (0 - 100%) and the Compliance Level (High, Medium, Low).
- iii. Select **[Compliance Score]** to view compliant and non-compliant requirements.
- iv. Review the Risk Assessment section to identify high, medium, and low risk items.
- v. Use the findings to update policy documents and re-upload them if required.

8.2 Administrative User – View Compliance Results

- i. Once the document analysis of the uploaded document(s) is complete, the document analysis page will be displayed.
- ii. Review the displayed Compliance Score (0 - 100%), the Compliance Level (High, Medium, Low) and the summarised AI-powered recommendations.
- iii. Select **[Compliance Score]** to view compliant and non-compliant requirements.
- iv. Review the Risk Assessment section to identify high, medium, and low risk items.
- v. Select **[Recommendations]** to view the AI-powered recommendations in detail, including references to the relevant page and the line numbers of the Personal Data Protection Act No. 09 of 2022.
- vi. Proceed to the Comparison Dashboards sections for deeper analysis.

9. Using Comparison Dashboards

The Comparison Dashboard allows users to review compliance results across departments in two different formats:

- Standard View - Focuses on compliance scores and system-generated recommendations
- Graphical View - Provides a visual comparison of departments using charts and rankings

Both the Standard View and Graphical View display the same compliance data. The difference between the views is only in how the information is presented.

9.1 Standard View

- i. Select **[Compare]** from the document analysis page.
- ii. This view displays the name of the organisation, selected department name, overall compliance score, assigned risk level and a list of CyberComply recommendations, including references to relevant sections of the Personal Data Protection Act No. 09 of 2022.
- iii. To view results for a different department:
 - Select a department from the drop-down menu.
 - The compliance score, risk level, and recommendations will update automatically.

Note: The Standard View is recommended for reviewing detailed compliance scores, risk levels, and CyberComply recommendations for an individual department, including references to relevant sections of the Personal Data Protection Act.

9.2 Graphical View

- i. Select **[Graphical View]** from the comparison dashboard (Standard View) page.
- ii. The Graphical View displays compliance results using:
 - A pie chart showing department-wise compliance distribution
 - A ranking and quick insights table with key compliance details
 - A control bar used to filter and sort results

9.2.1 Filtering and Sorting Results

- i. To filter departments by risk level:
 - Select the Risk Filter option.
 - Choose All, High, Medium, or Low.
- ii. To sort departments:
 - Select a Sort By option (Compliance %, Risk Level, Improvement Needs, or Department Name).
 - Choose an Order (High → Low or Low → High).
- iii. To restore default settings, select Reset.

9.2.2 Using the Pie Chart

- i. Each pie slice represents a department.
- ii. Hover over a slice to view compliance score, risk level, and improvement needs.
- iii. Select a slice to open detailed department information.

9.2.3 Using the Ranking Table

- i. The ranking table displays each department's compliance percentage, risk level and top compliance gap or improvement area
- ii. To view details, select a department row or click **[View]**.

9.2.4 Viewing Department Details

- i. When a department is selected, a detailed view opens showing compliance score and risk level, identified improvement needs, key compliance gaps and recommended corrective actions

9.2.5 Usage Tips

- i. Focus on High-risk departments first.
- ii. Sort by Improvement Needs to prioritise actions.
- iii. Use the Graphical View for quick comparisons and the table for detailed insights

Notes:

- The Graphical View is recommended for organisation-wide comparison of departments and for identifying high-risk areas and priority improvement needs.
- Both the Comparison Dashboards can be accessed by the Administrative Users Only.
- Compliance scores and risk levels shown in both dashboard views are based on the most recent completed document analysis. If documents are updated or re-uploaded, the analysis must be run again for the dashboards to reflect the latest results.

10. Accessing Reports

10.1 General User – View Report (No Download or Sharing)

- i. From the Document Analysis page, select **[Generate Reports]**.
- ii. Review the report contents, including compliance score, compliance level, checklist items and the risk assessment.
- iii. Reports are available in view-only mode for reference purposes.

10.2 Administrative User – Generate, Download, and Share Reports

- i. From the Document Analysis page, select **[Generate Reports]**.
- ii. Review the full report, including detailed corrective actions and AI-generated recommendations.
- iii. Select **[Download Report]** to download the report to your device.
- iv. Select **[Share]** to generate a secure report-sharing link.
- v. Share the downloaded PDF or secure link with relevant stakeholders as required.

11. Logging Out

- i. Click on the **profile icon** located at the top-right corner of any interface.
- ii. Select **[Logout]** to securely end your session.

- iii. Upon successful logout, you will be redirected to the welcome page.

Note: For security purposes, the system will automatically log out users after a period of inactivity (session timeout). You will need to log in again to continue.

12. Security and Data Protection

- i. CyberComply uses **AES-256 encryption** to protect data at rest and in transit.
- ii. **Multi-Factor Authentication (MFA)** is enforced to secure user accounts.
- iii. Uploaded documents are stored temporarily and automatically deleted after compliance analysis to ensure data privacy and regulatory compliance.

12.1 Disclaimer

CyberComply is an AI-powered compliance management platform intended to support regulatory compliance assessment and decision-making. The compliance scores, risk evaluations, and AI-generated recommendations provided by the system are for informational purposes only.

CyberComply does not provide legal advice. Users should review all results and consult qualified compliance or legal professionals before making final compliance or policy decisions.

13. Help, Support, and Troubleshooting

CyberComply provides multiple support mechanisms to assist users and ensure smooth system usage.

13.1 Help and Support

- i. The About Us and Frequently Asked Questions (FAQs) sections are available to provide general information and guidance.
- ii. In-app guidance and tooltips assist users during system interaction.
- iii. System notifications inform users about upload status, analysis progress, and report generation.

13.2 Troubleshooting Tips

13.2.1 Account & Authentication Issues

Unable to create an account	• Ensure all required fields are completed correctly. • Verify that the email address entered is valid and active. • Ensure the password meets the required security criteria.
OTP not received during registration or login	• Check the spam or junk email folder. • Ensure the registered email address is correct. • Wait a few minutes and request a new OTP if available.
Unable to log in	• Confirm that the correct email address and password are used. • Ensure Caps Lock is not enabled. • Reset the password using the [Forgot Password] option if necessary.
Account locked or session expired	• Log in again to continue using the system. • Sessions may expire automatically after a period of inactivity for security reasons.

13.2.2 Document Upload Issues

File upload failed	• Verify that the file format is supported (PDF, DOCX, TXT). • Ensure the file size does not exceed 50 MB. • Check your internet connection and retry the upload.
Unsupported file format error	• Convert the document to a supported format before uploading.
Password-protected or encrypted document	• Remove password protection from the file before uploading.
Corrupted or unreadable document	• Re-save or recreate the document and upload again.
Exceeded maximum number of uploads	• Ensure no more than 10 documents are uploaded in a single session.

13.2.3 Compliance Analysis Issues

Compliance analysis taking too long	- Large documents may require additional processing time. - Avoid refreshing the page while analysis is in progress.
Compliance analysis failed or did not start	- Check system notifications for error messages. - Re-upload the document if prompted. - Ensure the document content is readable and not empty.
Incorrect or unexpected compliance score	- Review the uploaded document to ensure relevant compliance content is included. - Upload additional or updated documents for more accurate analysis.

13.2.4 Viewing Results & Dashboards

Compliance results not visible after upload	- Refresh the page and check the Document Analysis section. - Ensure the analysis process has completed successfully.
Dashboards not visible	- Graphical dashboards are available only to Administrative Users. - Confirm that you are logged in with an Administrative User account.
Dashboard does not display any data	Select the [Reset] button to restore default dashboard settings.
Cannot see expected department results (Standard View)	Select the required department from the department list to refresh the compliance score and recommendations.
Pie chart or ranking table is empty (Graphical View)	Change the Risk Filter to All or select [Reset] to display all departments.
Dashboard does not update after changing filters or sorting (Graphical View)	Wait a few seconds for the dashboard to refresh. If the issue persists, reload the page and reapply the filters.
Department details do not open (Graphical View)	Click directly on a pie chart slice, table row, or the [View] button to open department details.

13.2.5 Reports & Export Issues

Unable to generate or view report	• Ensure the compliance analysis has completed successfully. • Refresh the page and try generating the report again.
Unable to download report	• Report download is restricted to Administrative Users. • Verify that you are logged in with the correct user role.
Downloaded PDF not opening	• Ensure a PDF reader is installed on your device. • Try re-downloading the report.
Unable to share report	• Secure sharing options are available only to Administrative Users. • Verify system permissions and retry the sharing action.

13.2.6 Recommendations & Advanced Features

Recommendations section not visible	• AI-powered recommendations are available only to Administrative Users.
Recommendations appear incomplete	• Ensure all relevant documents have been uploaded. • Re-run compliance analysis after updating documents.

13.2.7 General System Issues

Website not loading properly	• Refresh the browser page. • Clear browser cache and cookies. • Ensure a stable internet connection.
Buttons or features not responding	• Reload the page. • Try accessing the system using a supported browser.
Unexpected logout	• This may occur due to session timeout for security reasons. • Log in again to continue using the system.
